

KHUMBULANI GUMEDE

Computer Science Graduate · Full-Stack Developer · Cybersecurity

072 752 4123 | gumedekhumbulani54@gmail.com | khumbulani.vercel.app | github.com/gumedekb | South Africa

EDUCATION

B.S. in Computer Science and Information Technology

University of KwaZulu-Natal, PMB · Graduated May 2025

Concentrations: Computer Systems and Artificial Intelligence

Coursework: Data Structures & Algorithms, Machine Learning, AI, NLP, Database Systems, Software Design, OOP, Theory of Computation, Graphics & Modelling

TOP 3 PROJECTS

Full details, demos, and source code at khumbulani.vercel.app and github.com/gumedekb

Snaccchat — Real-Time Chat App

Personal Project · Aug 2026 · snaccchat-app.vercel.app

A real-time messaging app with direct and group chat, presence, typing indicators, and read receipts. Built as a security case study — pentested from a deliberately vulnerable build and hardened into a secure version with encrypted messages and JWT authentication.

Tech Brief — AI Career Intelligence Tool

Personal Project · July 2026 · tech-brief-flax.vercel.app

A web app for job seekers to paste a job description and instantly see how well their CV matches it — with a score, matched and missing skills, and AI-written cover letters and CV suggestions.

TradeScope — Trading Analytics Platform

Personal Project · Sep 2025 · tradescope-eight.vercel.app

A web app that helps traders review their performance by syncing data from MetaTrader 5, replaying past trades on a chart, and journaling notes and observations directly linked to specific trades.

ACTIVITIES & LEADERSHIP

Demonstrator — Data Structures & Algorithms (Comp201)

University of KwaZulu-Natal · Jul – Dec 2024

Supported 60 students through practical Java sessions, assignment help, and exam preparation.

SKILLS

Languages:

Java · Python · TypeScript

Backend:

Spring Boot · FastAPI · Next.js (API routes)

Frontend:

React · Next.js · TailwindCSS

Databases:

PostgreSQL · MySQL · SQLite · Supabase

Data & AI:

Scikit-learn · XGBoost · OpenAI / Gemini APIs

Security:

Web App Pentesting · Red Teaming · DevSecOps

Tools & Practices:

Git · Docker · REST API Design · MVC · Agile

CERTIFICATIONS

SOC Level 1

TryHackMe · May 2026 · 65h 29m

DevSecOps

TryHackMe · March 2026 · 26h 45m

Web App Red Teaming

TryHackMe · Feb 2026 · 24h 30m

Web App Pentesting

TryHackMe · Dec 2025 · 31h 53m
